

Puppy Name: Skedaddle
DOB: 10/3/19

Color/ Markings: Lt blonde-choc
Weight: 2-3 lb Temp: 100.4

Appearance, Weight, Temperature: Normal: ☒ Abnormal: ☐ Notes: _____

This dog is bright and friendly. It has good body conformation with normal weight and muscle mass for age and breed. Hydration (amount of fluid in the skin and other tissues) and body temperature are completely normal as well.

Cardiovascular: Normal: ☒ Abnormal: ☐ Notes: _____

The heart is strong and healthy. Each heart valve sounds normal. There are no murmurs (abnormal sounds). The pulse has a normal rate and strength with a regular rhythm. The capillary refill rate is rapid, indicating good peripheral circulation.

Respiratory: Normal: ☒ Abnormal: ☐ Notes: _____

Respiration is normal. Each part of the lungs sounds clear and healthy and your dog has a normal breathing rate and depth. Its trachea (windpipe) is of normal size and sensitivity for the breed.

Eyes: Normal: ☒ Abnormal: ☐ Notes: tearing

Eyes are bright and clear and free of discharge. The cornea, sclera, conjunctiva and eyelids are intact and healthy. The lens is transparent and the iris has a natural color and texture. The pupils are normally responsive to light.

Ears: Normal: ☒ Abnormal: ☐ Notes: _____

The conformation of the ear flap is normal for the breed of the pet. The skin of the ear flap and inner ears is healthy with no signs of parasites or infection.

Mucous Membranes: Normal: ☒ Abnormal: ☐ Notes: _____

Gums are a healthy pink color with normal hydration and capillary refill time.

Mouth and Teeth: Normal: ☒ Abnormal: ☐ Notes: _____

The gums and the insides of the cheeks appear sound and healthy. The tongue, tonsils, palate, and pharynx have a healthy color and appearance. The teeth appear clean, white and properly aligned. There is no significant accumulation of tartar.

Skin and Hair Coat: Normal: ☒ Abnormal: ☐ Notes: _____

Your pet's skin is healthy, smooth and normally flexible with no scabs, scales, growths, parasites, or irritated areas. Likewise, the hair coat is glossy and pliable with no bald areas or excessive oiliness. A flea prevention program is recommended.

Lymph Nodes: Normal: ☒ Abnormal: ☐ Notes: _____

Pre scapular, popliteal, inguinal, submandibular lymph nodes are of normal size and shape.

Abdomen and Abdominal Organs: Normal: ☒ Abnormal: ☐ Notes: _____

Abdomen has a healthy conformation and is free of painful areas. The liver, bowel loops, kidneys, spleen, and lymph nodes have normal sizes, location, and consistency. No masses or enlargements were detected on physical exam.

Musculoskeletal: Normal: ☒ Abnormal: ☐ Notes: _____

The skeleton is sound and fit. The muscles have normal tone and strength for the dog's age and breed. The pet's gait is normal with no signs of lameness or joint pain. No swelling or abnormalities such as arthritis or muscle wasting at this time.

Gastrointestinal: Normal: ☒ Abnormal: ☐ Notes: _____

There is no history of vomiting or diarrhea and the pet has a normal healthy appetite. Feeding a high quality diet appropriate for your pet's life stage is recommended to help maintain optimal health.

Urogenital: Normal: ☒ Abnormal: ☐ Notes: _____

Normal urinary tract. The bladder and kidneys are of normal shape, size, and consistency. Normal genitalia and reproductive organs for the age, sex, and reproductive status of the animal. There was no discharge or other sign of disease.

Nervous System: Normal: ☒ Abnormal: ☐ Notes: _____

Bright and alert, with a crisp, responsive mental attitude. This pet has excellent body control, posture, balance, and coordination. Its reflexes are brisk and sharp. Perception of its environment and body position are well tuned.

Breed Predispositions: Normal: ☒ Abnormal: ☐ Notes: _____

No specific predispositions to be concerned about at this time.

Age-Specific Concerns: Normal: ☒ Abnormal: ☐ Notes: _____

No age-specific concerns that need to be discussed at this time. Continue regular check-ups, vaccinations, flea and parasite control and a high-quality diet to optimize your pet's health.

Behavior: Normal: ☒ Abnormal: ☐ Notes: _____

No behavioral problems were reported.

Overall Health: Normal: ☒ Abnormal: ☐ Notes: _____

This puppy is in good health; it was a pleasure to examine and have here in our hospital. We look forward to seeing your puppy again at the next checkup.
